

Ohio's New Learning Standards

Analyze primary and secondary sources to describe the different perspectives on an issue relating to a historical event in U.S. History and to present and defend a position.

Explain the economic and religious reasons for the exploration and colonization of North America by Europeans

Explain how competition for control of territory and resources in North America led to conflicts among colonizing powers

Explain how the practice of race-based slavery led to the forced migration of Africans to the American colonies

Describe the contributions of enslaved and free Africans to cultural and economic development in different regions of the American colonies

Analyze the ways in which historical events are shaped by geography using modern and historical maps and other geographic tools.

Analyze how the availability of natural resources contributed to the geographic and economic expansion of the United States. Explain how this sometimes resulted in unintended environmental consequences.

Describe the movement of people, products and ideas that resulted in new patterns of settlement and land use and analyze its impact on the political and economic development of the U.S.

Analyze how choices made by individuals, businesses and government have both present and future consequences.

MAIN Idea Questions

How did the varying characteristics of the Thirteen English colonies affect their settlement patterns? Explain why a European emigrant would choose to settle in one colony over another.

Examine how the early experiences of the English colonists led to the development of democratic practices in America.

What role did the use of indentured servitude and slavery play in the political, economic, geographic, and cultural developments of the thirteen British North American colonies?
